

In Jamaica Joy is Contagious

written by Christine Giordano

Where else can you find such a perfect blend of aqua blue waves rolling onto white sand beaches... or cool waterfalls trickling through lush rainforests... mist rising from green mountains, and tiny grotto lakes nestled within caves... Where else can you find historic squares and plantations that allow you to get lost in time, rugged cliffs above breathless views, white stone churches echoing lifelong romance, and world-class lodging that welcomes everyone with a genuine, Jamaican smile.

Jamaica is where Romance is whispered in the gently waving palm trees and captured in the views that sweep from mountains to sea. You see it in the dreamy eyes of the islanders as they look over their mountains. You feel it as the ocean breezes touch your skin. You know it when your stress-free, sun-soaked days

transform into magnificent sunset evenings that stretch over sparkling waters.

Jamaica is where you lose track of time because you never want your days to end. Weddings become unforgettable. Just imagine your wedding whites against a picture-perfect backdrop of island beach with steel drums sounding through the air...

For traditional weddings, choose from a full selection of small intimate chapels to grand, stone churches. Or experience nuptials with rainforest waterfalls flowing at your feet, or on world-renowned golf course greens overlooking the Caribbean. Hotels can make arrangements for you, and offer wedding packages that accommodate special requests and include ceremony, transport and all expenses. Wedding planners are available. And the plentiful array of wedding venues offer themes to please everyone from eco-tourists to history buffs.

Whatever type of lodging is on your fantasy list, Jamaica is likely to have it, from world-class resorts and hotels to bed-and-breakfasts, villas, apartments and guest houses.

And, along with the lush scenery, Adventures and Cultural experiences await your heart's

desire. Walk through flower gardens and river gardens. Take a leisurely ride down the river on a bamboo raft. Shoot through the lush scenery on a zipline. Take a rum tour. Explore plantations and colorful art galleries showcasing international artists. Play polo or ride the beach and countryside on horseback. Bob down the river on a tube. Visit an animal farm. Peddle through history on a bicycle tour. Watch the cliff divers. Shop the island's exotic boutiques.

"It's all available, and waiting, like an island adventure of your dreams."

And, when you're ready for a night out, you can sneak away to quietly lit cafes, or experience the island's music at one of its nightclubs. Dancing is part of Jamaican life, and reggae is its internationally-known musical claim to fame. Sway the night away at pristine, starlit resorts or enjoy the local rhythms at Caribbean music clubs. Experience sumptuous island cuisine at the island's many restaurants. Sip Jamaican rum on the Caribbean.

Or... take off your shoes and walk the beaches, leaving two sets of footprints in the cool, moonlit sand.

Experience the wedding or vacation of a lifetime, in Jamaica.

"Jamaica is where you lose track of time because you never want your days to end."
